**EHS-135: All Hazards Awareness**  
**COURSE SYLLABUS**

**Subject Category:** Emergency Preparedness

**Schedule:** N/A

**Course Length:** 15-30 minutes

**Medical Approval:** N/A

**Delivery Method:** Online

**Location/Time:** N/A

**Course Prerequisite:** None

**Retraining/Recertification:** Annual refresher recommended.

**Course Purpose:** This course is designed to increase employee general awareness of all hazards related to the Lab and to teach employees how to take the appropriate actions to protect themselves from the harmful effects of an earthquake, an urban-wildland fire, a hazardous materials substance release, and other threats faced at the Lab.

**Course Objectives:**

- Provide an overview of all hazards facing LBNL.
- Provide instruction on and empower staff to know:
  - How to take protective actions against hazards including earthquakes, fires, and hazardous materials substance releases, etc.
  - How to report an emergency.
  - How to evacuate a building or from the Hill.
  - How to prepare one's self and family for an emergency.
- Provide an overview of the Emergency Response Organization (ERO) at LBNL.

**Instructor:** N/A

**Course Instructional Materials:** Online course. Videos imbedded within training.

**Training Compliance Requirement:** Not at this time.

**Course Handouts:** N/A

**Participant Evaluation:** Online evaluation following training.

**Written or Practical Exam:** None.

**Retraining/Recertification:** Annual refresher recommended.
