EHS 161 ~ PPE Training

Course Syllabus

Subject Category:	Occupational Health	Course Prerequisite:	No
Course Length:	Approximately 45 minutes	Medical Approval:	No
Delivery Mode:	Online Course		
Schedule:	Available online as needed		

Course Audience: This course is for Facilities Division trades, custodians, and their supervision, Engineering Division technicians, engineers and their supervision, EH&S technicians, specialists, and their supervision, other operations personnel who may enter shops or construction sites, and Scientific program operated shop and field personnel.

Purpose: This course meets OSHA PPE training requirements, and is part of LBNL's ongoing effort to help ensure that personnel have the knowledge and skills to work safely. However, this training does not cover specialized PPE such as Laser eyewear, respiratory protection, hearing protection, fall protection, welding or electrical PPE (and other types of specialty PPE) because these are covered in their respective courses.

This course is divided into the following modules:

- Eyes and face protection
- Hand protection
- Skin protection
- Feet protection
- Head protection

Course Objectives:

After completing this training, the successful student will be able to:

- Identify when PPE is necessary
- Identify what PPE is necessary
- Identify the limitations and useful life of PPE
- Properly care for and dispose of PPE
- Properly wear and adjust PPE
- Properly care for and maintain PPE

Course Instructional Materials: Online course contains text, graphics, interactivities and quiz questions.

Training Compliance Requirements: OSHA Requirement 1910.132(f)

Participant Evaluation: Online anonymous survey provided at the end of course

Exam: Online exam

Practical Exam: No

Retraining/Recertification: No
