EHS 0299 Scaffold Competent Person

Course Syllabus

Subject Category: Occupational Safety
Course Length: 2 hours
Delivery Mode: Class
Schedule: in-class & Hands-on

Course Prerequisite: No
Medical Approval: No

Course Purpose: This course is designed to qualify persons who need to perform scaffold inspections and to fulfill the role of competent person for scaffold. The qualification process consists of an in-class or one-on-one knowledge component, followed by a hands-on knowledge application (skills demonstration) component.

Course Objectives:

After completing this course, participants should be able to:

- Use an inspection sheet to effectively inspect a scaffold and its components to assess its readiness
- Identify existing and predictable hazards in the surroundings or working conditions that are hazardous to employees and take corrective actions to eliminate them.
- Determine the level of maintenance need to maintain a scaffold
- Erect, repair, move and disassemble the scaffold(s) you oversee

Course Instructional Materials: PowerPoint Presentation

Instructor: EHS Scaffold Instructor

Training Compliance Requirements: 29 CFR 1926.451

Participant Evaluation: Written evaluations regarding the effectiveness of the trainer, the training, and the visual aids.

Written Exam: Yes

Practical Exam: Yes

Retraining/Recertification: No
