Environment, Health, & Safety Training Program

EHS 0618 ~ Polychlorinated Biphenyls (PCBs) Waste certification

Course Syllabus

Subject Category: Waste Management
Course Length: 40 hours
Course Prerequisite: No
Delivery Mode: Class
Medical Approval: No
Schedule: Contact Waste Services
Refresher: EHS 0619 (Annually)

Course Purpose: This course is designed for hazardous waste generators and LBNL Operations staff who require information and guidelines on the management, cleanup and disposal of PCB wastes.

Course Objectives: The course provides an overview of the PCB regulations with an emphasis on disposal provisions for PCB remediation waste, PCB bulk product waste, PCB/radioactive waste, and wastes from research and development activities.

• Important definitions
• PCBs-physical, chemical and toxicological properties
• Categorizing PCBs, defining PCB concentrations, and determining whether material is a PCB waste
• Packaging, marking and labeling
• Storage for Reuse and Storage for Disposal
• Disposal (general requirements, bulk PCB liquids, and PCB Items)
• 40 CFR 761.61 - PCB Remediation Waste
• PCB Bulk Product Waste and Other Wastes,
• Record keeping, Reporting, and Notification

Delivery Method: Classroom Lecture & Exercises

Course Instructional Materials:

Instructors: RTI, Academy of Certified Hazardous Materials Management
