Subject Category: Waste Management  
Course Prerequisite: None  
Course Length: 45 minutes  
Medical Approval: None  
Delivery Mode: Online

Course Purpose: The goal of this course is to alert those whose appointment/term at the Lab is less than 90 days, and work under direct supervision of their responsibilities for waste generation and proper waste management at the Berkeley Lab. The course provides general information regarding how to protect Berkeley Lab Staff, community and environment while generating waste.

Course Objectives:  
At the end of the course, learners will be able to:  
• Understand hazardous waste definitions and generator area requirements.  
• Characterize waste for appropriate management at the point of accumulation.  
• Follow guidelines for storing waste compliantly in generator areas.  
• Recognize proper completion of waste accumulation forms and waste container labels.

Subject Matter Expert: Maram Kassis (x 6823)

Participant Evaluation:  
Written Exam: To receive credit for the course, you must pass the test with at least 80% accuracy.  
Practical Exam: No  
Retraining/Recertification: No
