EHS 657 ~ Self-Transporting Hazardous Materials Training

Formatted: Centered, Indent: Left: 0"

Course Syllabus

Subject Category:	Occupational Safety	Course Prerequisite:	No
Course Length:	15 minutes	Medical Approval:	No
Delivery Mode:	web-based		
Schedule:	One Time Training		

Course Purpose: This purpose of this course is to provide the learner with the steps on how to effectively package and secure hazardous materials for transporting. It also covers the regulatory limits for self-transportation, how to mark hazardous materials to communicate hazards, and what to do in an emergency.

Course Objectives:

Upon completion of this training, learners will be able to:

- Recognize the steps for packaging and securing hazardous materials for transport
- Recall and locate the regulatory limits for self-transportation
- Identify how to communicate the hazards of a material being transported
- Recall what to do in the event of an emergency

Course Instructional Materials:

- Web-based Training

SME: Andrew Peterson

Instructional Designer: Brooke Vaughn

Training Compliance Requirements: None

Participant Evaluation: Web-based evaluations regarding the effectiveness of the training and feedback regarding application design and function.

Written Exam: No

Practical Exam: No

Retraining/Recertification: No
