Training Program

**EHS 657 ~ Self-Transporting Hazardous Materials Training**

**Course Syllabus**

<b>Subject Category:</b>	Occupational Safety	<b>Course Prerequisite:</b>	No
<b>Course Length:</b>	15 minutes	<b>Medical Approval:</b>	No
<b>Delivery Mode:</b>	web-based		
<b>Schedule:</b>	One Time Training		

**Course Purpose:** This purpose of this course is to provide the learner with the steps on how to effectively package and secure hazardous materials for transporting. It also covers the regulatory limits for self-transportation, how to mark hazardous materials to communicate hazards, and what to do in an emergency.

**Course Objectives:**

Upon completion of this training, learners will be able to:

- Recognize the steps for packaging and securing hazardous materials for transport
- Recall and locate the regulatory limits for self-transportation
- Identify how to communicate the hazards of a material being transported
- Recall what to do in the event of an emergency

**Course Instructional Materials:**

- Web-based Training

**SME:** Andrew Peterson

**Instructional Designer:** Brooke Vaughn

**Training Compliance Requirements:** None

**Participant Evaluation:** Web-based evaluations regarding the effectiveness of the training and feedback regarding application design and function.

**Written Exam:** No

**Practical Exam:** No

**Retraining/Recertification:** No
