

ERNEST ORLANDO LAWRENCE  
BERKELEY NATIONAL LABORATORY

---

**Environment, Health, & Safety  
Training Program**

---

**PSD 0135 Emergency Management General Awareness Training  
Course Syllabus**

**Subject Category:** Emergency Management

**Course Length:** Approximately 20 minutes

**Delivery Mode:** Web-based

**Course Prerequisite:** None

**Medical Approval:** None

**Course Purpose:** This training provides direction in the case of an emergency at the Laboratory so that you have an awareness for how to keep safe. It is a requirement of the Department of Energy and the Laboratory's Emergency Management program.

**Course Objectives:**

After completing this training participants will be able to:

- Identify the purpose, role, and functions of the Emergency Management Program.
- Identify methods the Lab uses to notify and communicate before, during, and after an emergency and purpose of these communications.
- Identify three main categories of emergencies most applicable to the Lab.
- Recall how to perform protective actions in response to an emergency.
- Identify your responsibilities for responding to and reporting emergencies.

**Training Compliance Requirements:** DOE O 151.1C, and Protective Services Emergency Management Program

**Course Instructional Materials:** Web-based course containing videos. A PDF downloadable version of the course is available.

**Retraining Interval:**

**Written Exam:** No.

**Course Evaluation:** Written evaluations regarding the effectiveness of the training is available after conclusion of course.
