**EHS 0102 Phenol First Aid Safety**

**Course Syllabus**

**Subject Category:** Safety  
**Course Length:** 30 minutes  
**Delivery Mode:** Online & In-person

**Course Prerequisite:** No  
**Medical Approval:** No

**Course Purpose:** This course is for researchers who perform work with phenol solutions. It communicates the hazards associated with phenol, methods to control exposure, and first aid response measures.

**Who training is for:** Workers who use Phenol in the course of their work.

**Video training Objectives:**

After successfully completing this training, participants will be able to:

- Recognize the hazards associated with exposure to Phenol (inhalation, ingestion, skin/eye contact)
- Recall first aid response process using Phenol response kit

**In-class training objectives:**

- Identify the hazardous properties of phenol and the health effects from exposure
- Identify methods to prevent harmful exposure
- Select appropriate PPE
- Respond appropriately in the event Phenol makes contact with skin using Phenol first aid kit

**Training Compliance Requirement:** NA

**Retraining/Recertification:**
